- Answer a growing need for clinical exercise physiologists in rural, remote and Indigenous communities, particularly in Northern Australia.
- Learn advanced knowledge and skills to assess, formulate and deliver exercise programs to clients. This course holds provisional accreditation with Exercise and Sports Science Australia.
- Apply your theoretical knowledge to 360 hours of industry clinical experience through varied placement opportunities in rural, remote and regional locations, including the JCU Exercise Physiology Clinic.
- Plan and execute a substantial piece of research addressing a complex theoretical or professional practice issue.

COURSE DETAILS:

Locations:	Townsville
Commencing:	February
Duration:	1.5 years full-time, part-time available
Prerequisites:	An Exercise and Sports Science Australia accredited AQF level 7 bachelor of Sport and Exercise Science or equivalent; or hold current ESSA accreditation as an exercise scientist

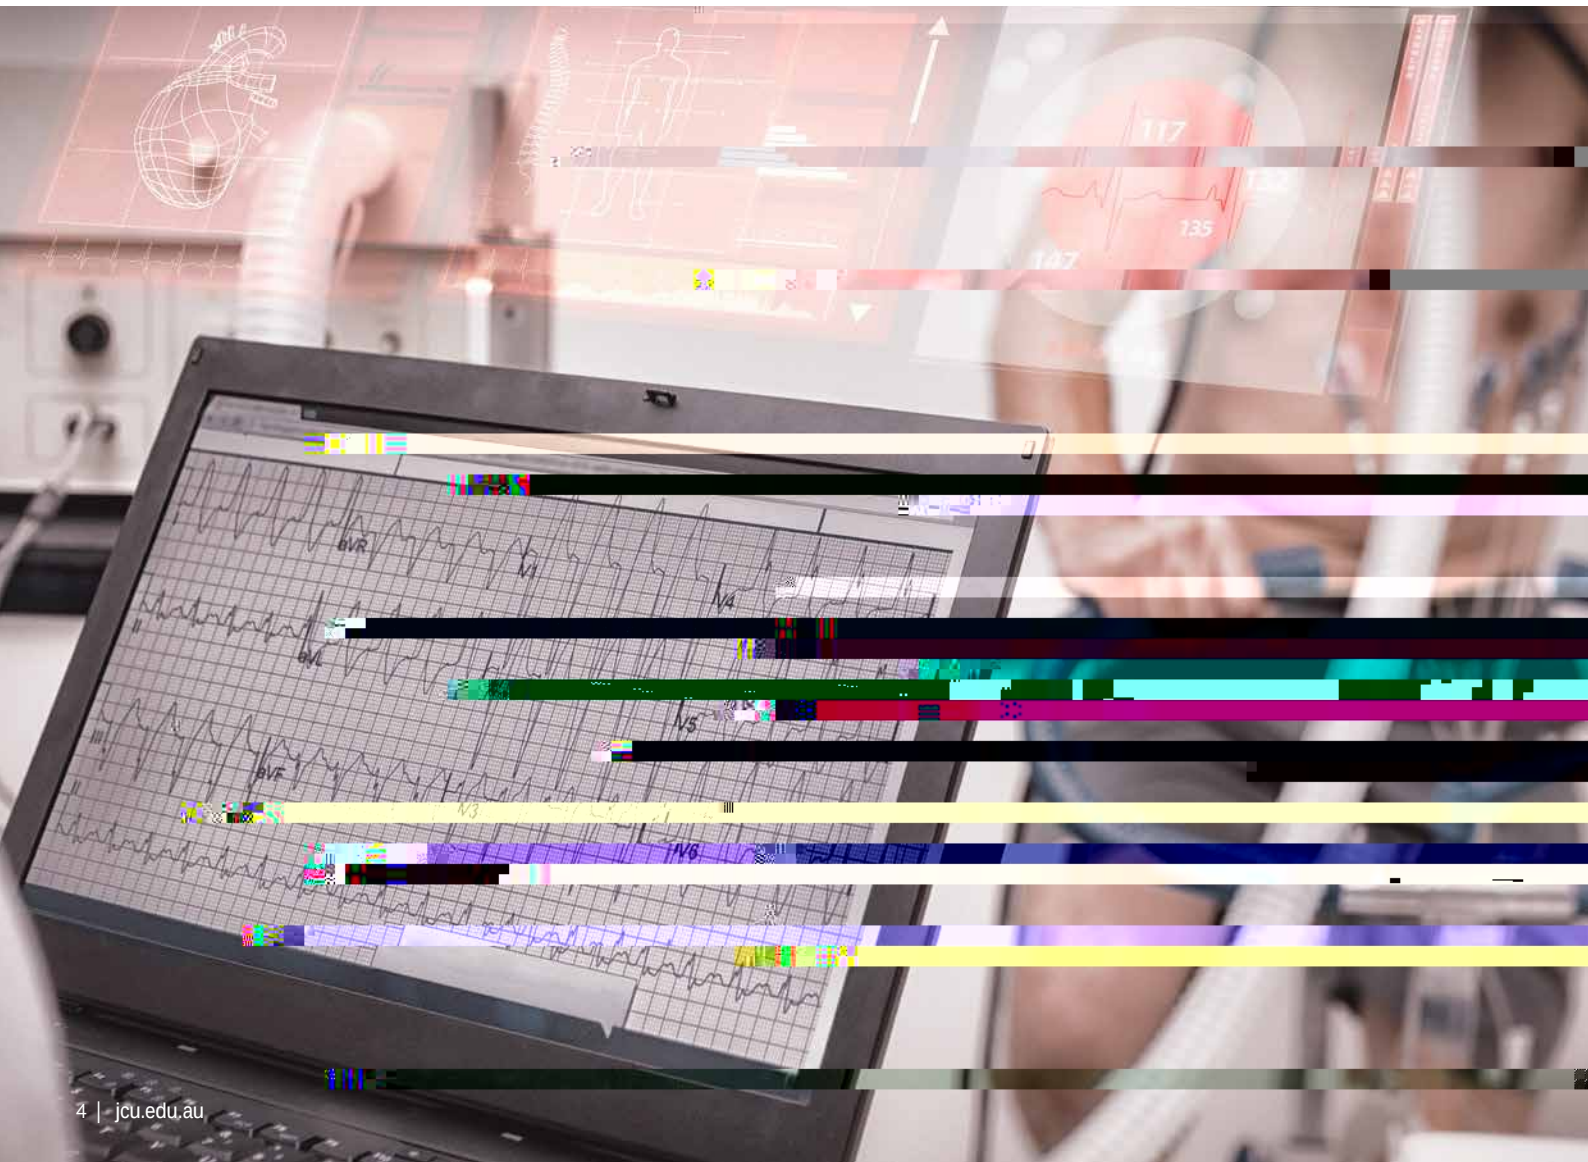
Please visit the handbook for a detailed outline of the course structure. Note: Information is for domestic students only

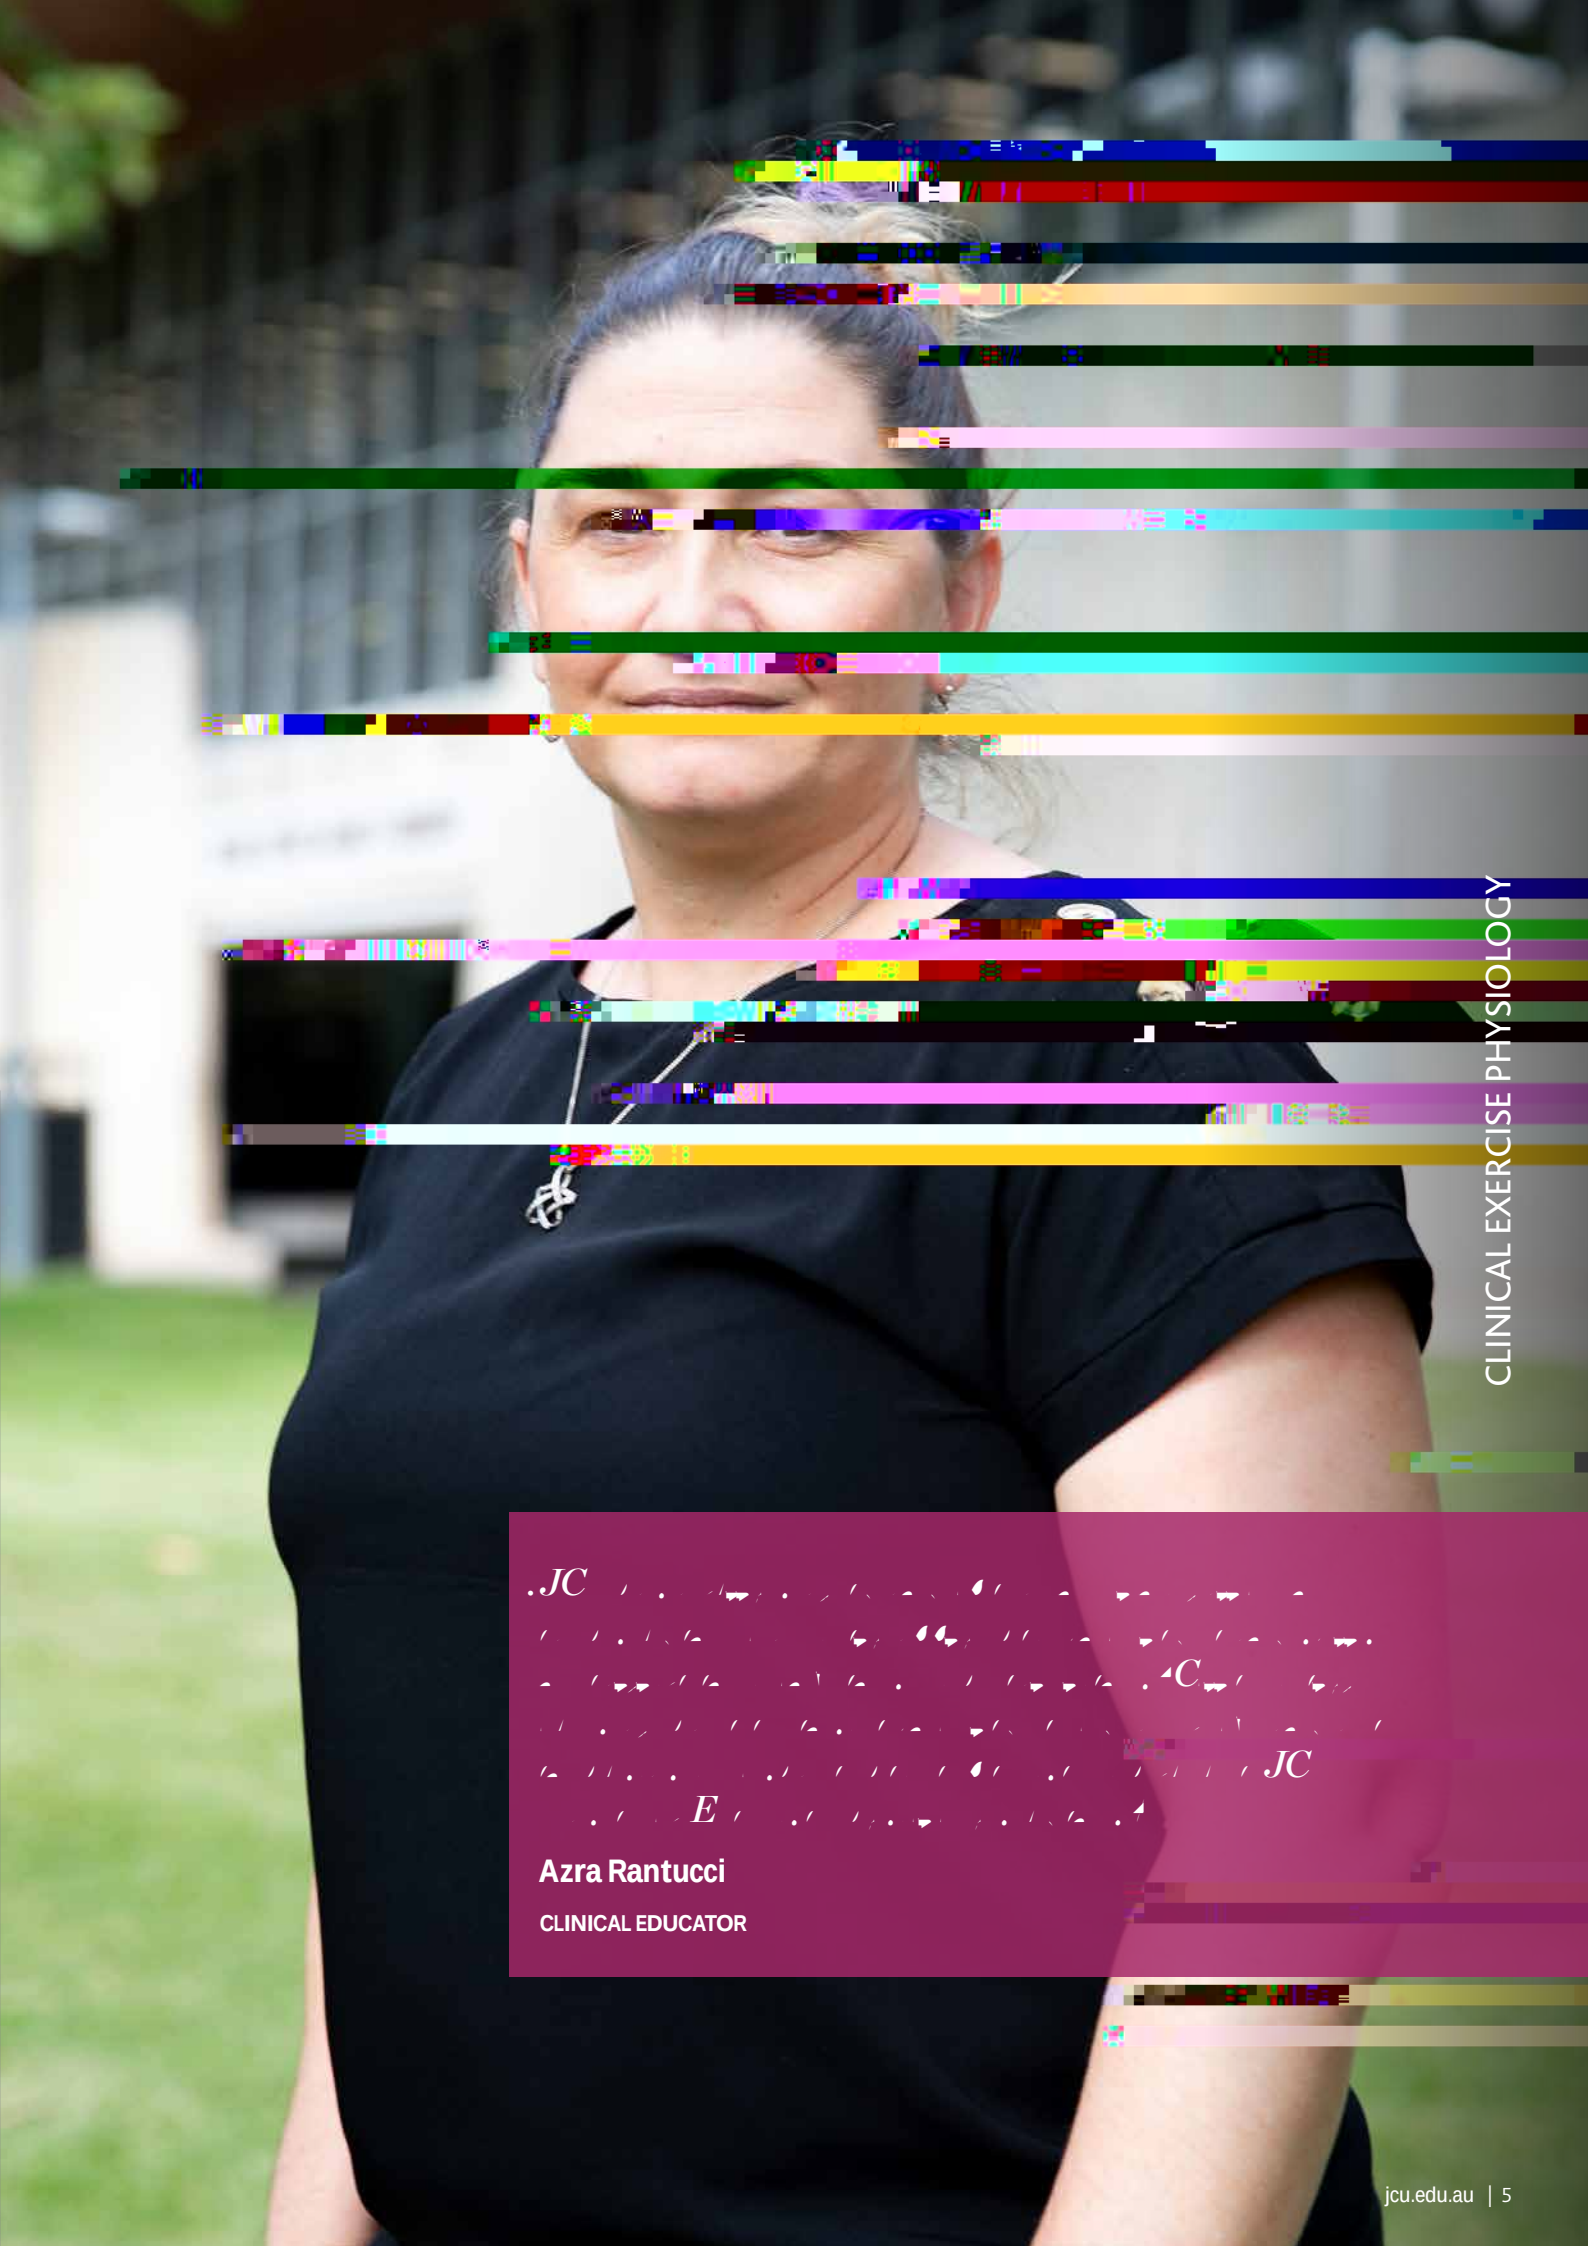
E e e ce a b e

The Master of Clinical Exercise Physiology gives you the advanced skills necessary to devise and deliver exercise programs for individual clients through an evidence-based and holistic approach. Learn to assess and treat individuals with chronic conditions, as well as how to improve your services and assistance to your overall clientele.

Learn in the purpose-built JCU Exercise Physiology Clinic. Sharpen your professional skills through practical placements and opportunities, so that you graduate with an expert understanding of the mechanisms of human movement as well as the ability to apply your knowledge to a range of physical circumstances.

The Master of Clinical Exercise Physiology will give you the opportunity to work in a rewarding career in a variety of settings. Graduate with the skills, experience, and network to kickstart your career or pursue a PhD.





Azra Rantucci

CLINICAL EDUCATOR

Ca ee O e

JCU Master of Clinical Exercise Physiology graduates are successful, highly-skilled health professionals who make a difference in regional, rural and remote communities in North Queensland and around Australia.

Graduates work in private and public hospitals, within multidisciplinary medical centres, fitness centres, aged-cared facilities, workplace health and rehabilitation and private practice.
